16, A Sri Krishna Nagar, Dharapuram, Tiruppur

PROFESSIONAL SUMMARY

Motivated Information Technology student with a strong foundation in Artificial Intelligence, Machine Learning, Deep Learning, and software development. Interested in building practical, data-driven intelligent systems and continuously improving technical and problem-solving skills.

EDUCATION

B.Tech in Information Technology | K S R College of Engineering | Anna University

Current Year: 3rd Year | CGPA: 8.72

Higher Secondary (12th) | Veveaham Higher Secondary School | 90%

Secondary (10th) | Veveaham Higher Secondary School | 78%

TECHNICAL SKILLS

Programming: Python, Java, SQL

AI / ML: Machine Learning, Deep Learning, LSTM, Predictive Modeling, Intelligent Systems

Libraries / Frameworks: TensorFlow, Scikit-learn, Pandas, NumPy, OpenCV, Streamlit, Flask

Web: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, Google Colab, Jupyter Notebook

Database: MySQL

PROJECTS

AI-Based Real-Time Rockfall Prediction and Early Warning System

- Developed an LSTM-based prediction system using multi-source sensor data such as vibration, tilt, and environmental parameters.
- Built a real-time monitoring and early-warning dashboard using Python, TensorFlow, Streamlit, and Flask.

EduPredict AI – Student GPA Predictor

- Developed a machine-learning model to predict student GPA from academic and related inputs.
- Created an interactive Streamlit application for prediction and visualization.

Scene 3D – Single Image 3D Depth Scanner

- Worked on single-image depth estimation for converting a 2D RGB image into depth information for 3D scene generation.
- Used Python, PyTorch, Depth Anything V2, OpenCV, and related computer-vision tools.

Personal Portfolio Website

- Designed and developed a responsive portfolio using HTML, CSS, and JavaScript.
- Published the portfolio using GitHub Pages with smooth section animations.

INTERNSHIP

GKT | Depth Engine Engineer Intern | 15 Days

- Worked on Scene 3D – Single Depth Estimate.
- Contributed to the depth-estimation workflow for single-image 3D scene generation.
- Worked with Python, PyTorch, computer vision, and Depth Anything V2 concepts.

CERTIFICATIONS

- Zero Trust Cyber Associate – Zscaler Cyber Academy
- Fundamentals of Cybersecurity (EDU-102) – Zscaler Training
- Zero Trust Cloud Security Virtual Internship – EduSkills (Supported by Zscaler)
- Master The Art of Artificial Intelligence – TopGrade

ACHIEVEMENTS & LEADERSHIP

- Hosted and coordinated multiple events as part of the MC / Master of Ceremonies team.
- Mentored junior students and supported them in academics and technical learning.
- Actively participated in technical activities, presentations, and project-based learning.

HACKATHONS

- Participated in Smart India Hackathon (SIH), contributing to problem analysis, idea development, and solution presentation.

AREAS OF INTEREST

Artificial Intelligence • Deep Learning • Computer Vision • Intelligent Systems • Data Science • Software Development • Problem Solving

CAREER OBJECTIVE

To build a career in technology by applying strong foundations in Information Technology, AI/ML, and intelligent systems to real-world problems while continuously learning and contributing to impactful software solutions.

DECLARATION

I hereby declare that the information provided in this resume is true and accurate to the best of my knowledge.
